North Central Technical College

2018 - Present

PeopleSoft Technical Consultant

- Created new Time and Labor Overtime Rules for Overtime for a specified Workgroup
- Customized Student Class Roster Bi-Publisher report in CS and Self Service Faculty Center
- Created customized process that automated AR Deposit/Worksheet Creation/AR Posting using Application Engine and Component Interface.

- Further customized CS to HR custom process which takes payment amounts from CS and creates Additional Pay Records in HR using Integration Broker/PeopleCode/Application Engine.
- Created and modified Absence Management rules for Vacation and Sick for select groups of employees.
- Other Technical Development surrounding North American Payroll, Time and Labor, and Benefits Administration, Financials (AR), and Campus Solutions (SR) PeopleSoft 9.2

Berlin Packaging

Senior Programmer Analyst

2016-2018

- Provided Production Support for PeopleSoft FSCM suite of modules including GL (General Ledger), AP (Accounts Payable), PO (Purchasing), BI(Billing), AR(Accounts Receivables), OM(Order Management), INV (Inventory)
- Technical Mods to PeopleSoft related FSCM modules using PeopleCode, PeopleTools, BI-Publisher, SQR, Component Interface, and Application Engine including:
 - Re-structuring and de-serializing entire nightly Inventory OM to Bill process for company (Average billing \$4M/day) enabling on-call support to be discontinued.
 - Customization to prevent users from running multiple processes of the same process at one time, preventing database contention and numerous help desk tickets.
 - Lead conversion for Item quantity and cost on two acquired companies.
 - Averaged closing 2 PeopleSoft support tickets per day on a backlog of over 700. Tickets ranged from data issues to failures to lack of training, etc.

Hinda Incentives

PeopleSoft Developer

2015-2016

- Customized and supported existing PeopleSoft FSCM system to accommodate business needs using PeopleTools (PeopleCode, SQR, Application Engine, Component Interface, Integration Broker) technologies.
- Modules supported were Order Management (OM), Billing (BI), Inventory (IN), Accounts Receivable (AR), Purchasing (PO) and Accounts Payable (AP).
- Supported 3rd Party Shipping system and Integration with Web Catalogs.
- Implemented EDI AP processes by Vendor.
- Served as secondary (backup) PeopleSoft Administrator

Sierra-Cedar

2013- 2014

Senior PeopleSoft Consultant/Developer

- Developed on-line custom HCM hiring process using PeopleTools and PeopleCode which allows campuses within California State University – Long Beach to hire Temporary Faculty/Adjunct Professors in mass.
- Created custom self-service questionnaire within PeopleSoft for Temporary Faculty to complete once the contract has been initiated.
- Converted the Load to Job SQR (last process to hire Temp Faculty) to a Component Interface and Application Engine.
- Created custom on-line Evaluation Tracking tool and associated report within PeopleSoft for Temporary Faculty.
